GLADIOLUS

*at Lower Prices
than Ever Before*

Tradition alone maintains some of the old popular Gladiolus—but *their day is done*. A newer group of varieties has taken their place and are the present day winners. Varieties with finer colors, larger flowers and better keeping qualities. Look at our listings on page 1 and see the fine group of newer kinds which can be purchased at such prices as to permit of liberal plantings. In these highly competitive days only those who plant the best can expect to operate profitably.

This is Our Wholesale Trade Catalog

—and is intended only for those engaged in the commercial growing or selling of bulbous stocks. We do not issue a retail catalog nor do a retail business.

WE ARE doing our part to stimulate business activity by passing every possible price advantage to our customers. And this is not being done at a sacrifice in quality for never were we able to offer a finer lot of bulbs. All through this Spring list you will find quotations below those we have been able to make for many years and in a large number of the items the prices are the lowest ever quoted.

We again urge our customers to turn away from some of the older varieties which have been popular in the past to the long new list of finer things which have been developed in the past few years and which are now available in sufficient quantities to justify lower prices and permit plantings on a liberal scale. Only those with the best flowers can hope to operate profitably in these times and these best flowers can only be produced by a selection of the right varieties.

We are constantly broadening our line and thus maintaining our position as the foremost suppliers of the most complete line of bulbs and kindred items in the country. We are ever on the lookout for new or old neglected bulbous items which offer commercial possibilities and these are being added to our list from time to time.

Please see Page 22 for our offer on Sansevieria and Page 23 for Wrapped Ferns. We believe that both these items offer opportunity for profitable sales by you.

We take the opportunity of thanking you for your patronage in the past and hope that we may continue to enjoy your good will.

A Few Simple Instructions on the Planting of Spring Bulbs

Practically the entire group of bulbs, corms or tubers which are planted in the spring for Summer flowering are tender—which means that they must not be exposed to temperatures which are at or closely approaching the freezing point.

Weather conditions all over the country are too variable to permit the naming of safe definite planting dates but generally speaking no exposed plantings should be made until the soil has had the benefit of some mild weather. Nothing will be gained in an attempt to anticipate this condition.

We give at right suggestions for the depth of planting and spacing of the leading items:

	Cover Inches Deep	Space Inches Apart
Gladiolus	4 in.	6 in.
Dahlias	4 in.	36 in.
Cannas	3 in.	24 in.
Tuberose	3 in.	8 in.
Caladium Esculentum	3 in.	24 in.
“ Fancy Leaved	2 in.	10 in.
Montbretias	3 in.	5 in.
Begonias	2 in.	12 in.
Hardy Lilies	5 in.	10 in.

ASK FOR THESE FREE DISPLAY CARDS

We will have available for distribution this spring season a new set of standard size (5½ x 7”) display cards of many of the most popular items offered in this catalog. They are of great help in the resale of these bulbs and we will include them free with every order upon request.

ABOUT PRICES

We sell six bulbs at the dozen rate, 25 at the 100 rate, 250 at the 1000 rate. Depending upon the extent of our stocks and upon market conditions lower prices can invariably be made on large quantities of any item upon request.

NOTE—With the exception of Dahlias, Tritomas, Peonies and Dicyltras which are shipped direct from our growing station at Central Park, L. I., N. Y., all stocks offered in this catalog are quoted F.O.B. New York City and are delivered free to any express or railroad station or any steamship dock within this area. As an added service to our Southern customers we have arranged to make shipments from our Jacksonville warehouse of many of the items listed herein. Customers in the extreme Western States can avail themselves of a similar saving on many stocks by communicating with our San Francisco office located at 925 Howard Street. Sansevierias and Ferns are quoted F.O.B. our Growing Station, Florida.

LIBERAL TERMS TO RESPONSIBLE PARTIES

Our regular terms of sale are as follows: 5% off for cash with order, 2% off for cash within 10 days; final payment to be made within 60 days. These terms will apply in all sales to customers who in turn resell the bulbs.

To the grower and florist, however, we have inaugurated the “GROWERS’ TERMS” of sale. They are as follows: invoices for bulbs are payable from responsible florists and growers 10 days after the normal flowering period of the particular bulbs sold, with final payment on late summer bulbs due July 15th. We, in this way, endeavor to assist the florist and grower during the period that the stocks are in growth.

When applying for credit it will greatly expedite matters if you will give us the names and addresses of those firms (preferably members of the trade) with whom you at present enjoy credit privileges.

WHAT WE GUARANTEE. We guarantee that all bulbs leave our farms and warehouses in good condition, packed in boxes or packages substantially secure and sufficiently strong to insure delivery in good condition with reasonable handling. The risk of transportation is one which the customer must absorb.

WHAT WE DO NOT GUARANTEE. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, nor will we be in any way responsible for the crop. If the customer does not accept the bulbs, roots or seeds under these conditions, they must at once be returned to us and any money paid will be promptly refunded.

Positively no claims allowed unless made within five days after the receipt of merchandise.

10,000,000 Gladiolus

At Lower Prices Than Ever Before

Our commanding position among Gladiolus suppliers has been brought about mainly by developing stocks of newer varieties after their value in a commercial way has been demonstrated. On top of this we have been aware of the definite limit which regulates the prices that growers can profitably afford to pay. We were the first to offer such outstanding varieties as Los Angeles, Virginia, Souvenir, Orange Queen, Mrs. Leon Douglas, etc., at these reasonable levels and this year have added other equally fine varieties to the commercial list.

Gladiolus are more popular today than ever before. Flower buyers have come to regard them as indispensable as Lilies and they are now available every day in the year. At our moderate prices, you can afford to grow the best for even in the duller markets these select varieties command a premium that insure a profit.

The Nine New Commercial Leaders at Prices You Can Afford to Pay

	1½" & Up 100 1,000	1¼-1½" 100 1,000		
GIANT NYMPH. Without a doubt one of the largest and finest varieties—one that has lived up to all the great things said about it when first introduced. Color is "La France" pink with a creamy yellow throat; large wide open flowers well placed; 6 to 7 open at a time on a huge spike.....	\$3.60	\$30.00	\$2.90	\$24.00
Special extra size 2" bulbs \$4.30 per 100, \$36.00 per 1,000.				
GOLDEN MEASURE. Until a real yellow large flowering Gladiolus is developed, we will have to get along with Golden Measure. It is now the best one of this color available.....	4.20	35.00	3.35	28.00
LOS ANGELES. Commonly referred to as "the branching Gladiolus" due to the fact that it produces several lateral stems all of which make good flowering spikes. Color shrimp pink, orange carmine throat. We consider this as an outstanding commercial pink. Note our very special price	2.15	18.00	1.70	14.00
Special extra size 2" bulbs \$2.65 per 100, \$22.00 per 1,000.				
MRS. FRANK PENDLETON. In spite of the many fine varieties being added every year this Gladiolus still maintains its position as head of the commercial group. The color is rosy pink with lavender shadings and a pronounced dark carmine blotch. Its form and substance leaves nothing to be desired. We are glad that our large stock of fine variety enables us to offer at the following prices	2.15	18.00	1.70	14.00
Special extra size 2" bulbs \$2.65 per 100, \$22.00 per 1,000.				
MRS. LEON DOUGLAS. (See illustration.) This variety was very favorably received in the flower markets last season, which was the first year the bulbs were available at commercial prices. Choice greenhouse stock brought as high as \$12.00 per dozen in New York cutflower market, and the outdoor flowers readily brought \$1.50 per dozen when other varieties were unsalable. This promises to be a real winner. Very robust and strong grower with wide leaves and tall heavy spikes and flowers. The color is light rose with flakes and specks of red and scarlet with light yellow tints on lower petals. Note our special price.....	3.60	30.00	2.90	24.00
Special extra size 2" bulbs \$4.30 per 100, \$36.00 per 1,000.				
NANCY HANKS. (See illustration.) Another beautiful variety originated by Salbach. Rich apricot to orange pink. Many flowers open at one time. It will not burn in the hot sun, which is an added quality.....	3.00	25.00	2.40	20.00
Special extra size 2" bulbs \$3.60 per 100, \$30.00 per 1,000.				
ORANGE QUEEN. This variety is easily handled. It forces easily and is one of the earliest when planted outdoors. It is an apricot orange and a color that does not exist in any other variety.....	4.20	35.00	3.35	28.00
Special extra size 2" bulbs \$5.00 per 100, \$42.00 per 1,000.				
SOUVENIR. Pure golden yellow grandiflora type of primulinus. Well spaced flowers on strong stems and very early. Splendid forcer and good outdoor grower. We have the largest stock of this fine, real yellow variety and it is the only true yellow available in commercial quantities today	2.40	20.00	1.90	16.00
Special extra size 2" bulbs \$2.90 per 100, \$24.00 per 1,000.				
VIRGINIA. This is the finest and most popular commercial red. Its earliness and lasting brilliancy have created for it a well deserved popularity. Pure scarlet with slightly lighter throat with many large open flowers facing one way. Whether for outside or for forcing there is nothing in its color to equal it.....	2.15	18.00	1.70	14.00
Special extra size 2" bulbs \$2.65 per 100, \$22.00 per 1,000.				

OSALIN

"World's Foremost Bulb Growers"

General List of Commercial and Novelty Gladiolus

There is a vast difference in the quality of Gladiolus bulbs that is not apparent by an examination of the dry bulbs and one must be familiar with the conditions under which they are grown before determinations can be made of the performing value. Our bulbs—for instance—are all grown from young stock which is a very important factor in the developing of high crown bulbs. We also dip every bulb in Semesan before planting which keeps the stocks healthy and stimulates the growth. Furthermore we do not cut any flowers whatever (except to remove

the seeding pods) and this has a twofold advantage in that it permits the new bulb to gain full maturing advantage of the whole plant and enables us to check up and rogue out any bulbs that may be mixed.

Such quality, plus reasonable prices and a well balanced list of varieties of proven merit, accounts for the fact that we handle more Gladiolus bulbs than any other firm in the East.

GENESEE. (Primulinus.) Large pale yellow Primulinus. Erect, strong and vigorous grower of good form.....	4.20	35.00	3.35	28.00
GIANT NYMPH. (See page 1.)				
GOLD. A fine self colored yellow. The flowers are well arranged and it ranks well among the best of this color.	4.80	40.00	3.90	32.00
GOLDEN MEASURE. (See page 1.)				
GOLDEN SWALLOW. Beautiful clear yellow with no throat markings. Slightly ruffled.....	4.80	40.00	3.90	32.00
GRETCHEN ZANG. La France pink with lower petals blotched deep rose and scarlet. A strong grower and favorite cut flower variety.....	3.00	25.00	2.40	20.00
HALLEY. Delicate salmon pink with creamy blotch and darker stripes. Very early and for this purpose used most extensively.....	2.15	18.00	1.70	14.00
Special extra size 2" bulbs \$2.65 per 100, \$22.00 per 1,000.				
HARMONIA. Orange shaded salmon.....	6.00	50.00	4.80	40.00
HELGA. (Primulinus.) This is a tall, handsome, grandiflora variety that is attracting lots of attention. The color is dark coral pink and it is remarkably free flowering.....	3.00	25.00	2.40	20.00
HERADA. Pure mauve. Large, well formed spike. We have a splendid stock of this beautiful variety.....	2.15	18.00	1.70	14.00
Special extra size 2" bulbs \$2.65 per 100, \$22.00 per 1,000.				
ISIS. A striking late red variety of splendid form having five and six flowers open together. It blooms after the main varieties are finished and is therefore valuable.....	3.00	25.00	2.40	20.00
JEWEL. (Primulinus.) A combination of apricot and yellow with canary throat. Very large open flower without the objectionable hood and altogether a splendid kind.....	2.40	20.00	1.90	16.00
JOE COLEMAN. Bright red with carmine blotch. Many open at once.....	3.00	25.00	2.40	20.00
L'UNIQUE. Fiery orange red, blotched pure white.....	6.00	50.00	4.80	40.00

We advocate the extensive use of second size bulbs for outside planting. Their smaller cost generally more than compensate for the small difference in flowering time and very often the spikes produced by these younger bulbs are finer than those of the larger bulbs.

"PUREST OF ALL"

Gladiolus Mixtures

With the price of the leading standard varieties now so low, we suggest to our customers that instead of buying mixtures they purchase a balanced list of named kinds over a wide range of colors and do the mixing themselves. When actual mixtures are bought from us, we make them up in this same method for it is obvious that the actual growing of mixed Gladiolus has long since ceased to be profitable.

EXHIBITION MIXTURE. Made up to individual orders, from a select list of varieties over a wide range of colors.

Gladiolus for Flowering Through the Winter Months

We have for years been endeavoring to establish the most satisfactory method of handling Gladiolus bulbs for winter forcing—either for greenhouses in the north or for outside planting in the south—and have arrived at the conclusion that northern grown bulbs, placed in cold storage at the proper time and in the right condition, will produce more uniformly and satisfactorily than bulbs grown or handled in any other manner.

We, therefore, suggest that buyers anticipate their requirements and give us a firm order for the bulbs they will need and allow us to place them in cold storage either in New York or Jacksonville and make shipments to them when needed. The bulbs to be stored not later than April and there will be no extra charge for our service other than the cold storage charge, which will average about fifty cents per thousand bulbs per month.

The Four Leading Cut-Flower Dahlias

Leading Commercial Cutflower Dahlias At These Prices You Can Afford To Grow the Best

WE ARE continuing our program of making a yearly selection of the Dahlias best suited for commercial cutflower purposes and of making these varieties available to our customers at prices which will put them within the reach of all and permit extensive plantings. Never before has such a fine list of Dahlias been offered at our low prices. Our large volume, coupled with our desire to stimulate business by giving our customers every possible advantage, have made these big reductions possible.

In seeking to adapt a standard by which to measure the quality of a marketable cutflower Dahlia we have insisted upon the following traits.

Long strong stems—which are essential for marketing purposes.

Attractive colors—for everybody likes pink, lavender, yellow and orange.

Good keeping qualities—which are lacking in so many other kinds.

Prolific Bloomers—flowering in great profusion throughout the season.

Easily grown anywhere—adapting themselves readily to all conditions.

JERSEY'S BEAUTY

Dahlia varieties come and go by the thousands; but Jersey's Beauty still holds the lead as the greatest money maker.

A grand color, a beauty for cutting. A real dahlia for florists. This wonderful flower, introduced in 1923, created a sensation, and still heads a class of its own. It is a large, perfectly formed flower, of a clear erosine pink, held upright on a long wiry stem over a well-branched, bushy plant.

It is a real clear florist's color, a wonderful keeper and good shipper. The awards it has gained all over the country surpass, in number, all past records of Dahlia Novelties.

Once again we have reduced the price.

Strong Divisions per doz., \$2.15; per 100, \$15.00; per 1000, \$125.00. (250 at the 1000 rate.)

MRS. I. DE VER WARNER

This exquisitely beautiful blossom of soft orchid, or rich rosy mauve, is one of the most admired and best of all cut-flower dahlias that we have grown. This extra large refined, lovely flower with its strong stiff stem, is a prolific bloomer and one of the very best for florist's use as well as exhibition purposes. A fitting combination for Jersey's Beauty.

In addition to being an excellent cut flower variety it is one of the finest garden plants that we know of, for it maintains a mass of bloom on an erect, well-shaped plant throughout the entire season.

Strong Divisions per doz., \$1.75; per 100, \$12.50; per 1000, \$100.00. (250 at the 1000 rate.)

JANE COWL

JANE COWL

While the stock of this beautiful Dahlia is not as yet available in sufficient quantities to bring it to the price level of the other varieties on this page, we nevertheless advocate its planting in generous quantities for the flowers always command the highest prices.

This dahlia has been a success wherever grown the past season and is one of the most talked of novelties. Color, a warm buff and old gold, blending to apricot and rose at the center. Bush growth is ideal with strong stems holding the giant flowers upright. Our stock is direct from the originator.

Strong divisions each, \$1.15; per dozen, \$12.00; per 100, \$85.00. (250 at the 1000 rate.)

SAGAMORE

Pages have been written about the wondrous beauty of this dahlia. Its color—a golden yellow suffused with orange—makes it particularly valuable for early fall decorations—and its habit of growth, free flowering qualities, length of stem and keeping qualities leave nothing to be desired.

We offer this fine variety at popular prices. Strong divisions per doz., \$2.15; per 100, \$15.00; per 1000, \$125.00. (250 at the 1000 rate.)

Dahlia Roots FOR DRY COUNTER SALE

For several years past we have been offering large undivided whole field clumps for store trade, and while aware that these clumps produce no finer flowers than the divisions it is evident that their size makes an appeal when offered for display and the way that our business has increased on this item is proof that this is the most satisfactory method for the retailing of Dahlia Tubers. We will supply Colored Display cards free of charge if you ask for them. Colors and prices top of next column.

Rynveld's Fancy-leaved Caladiums

Reproduced from a water color drawing by our own artist, showing six delightful and distinct types from our vast collection.

We know of no other ornamental plant that offers the Florist such a wide margin of profit, for such a small outlay, and so little effort or labor required in producing the finished plant.

Photograph below shows a section of our Caladium Slat House at our bulb farms at Jacksonville, Fla.

Rynveld's "Super Collection" of Fancy Leaved Caladiums

These bulbs have assumed an important position among Summer decorative plants and each year are being more prominently featured. They are ready for delivery in January and by making plantings throughout the spring months, a succession can be maintained throughout the whole summer and early fall season.

For this super collection we will send out a group of extra choice varieties (each one of which will be separately labelled) comprising a wide range of all the known colors including the beautiful transparent and birch bark kinds.

Per 100, \$15.00; per 1,000, \$125.00.

Giant Flowering Hybrid Amaryllis

The Finest and Largest Collections in the World

A few years ago when we started the extensive culture of these bulbs visitors to our fields inquired as to the possible market for such quantities of a bulb which formerly had been sold in limited numbers only. We replied that any bulbs that performed such as these Amaryllis did would quickly be in demand and our predictions were borne out this past season when we had to refuse many late orders.

This year they are finer than ever before.

A re-selected strain of the very largest flowered sorts, ranging in color from almost pure white, through various shades of pink, to the deepest scarlet, some with beautiful markings and mottled throats.

An easily-grown plant of wondrous beauty; a quick seller to those who love an unusual and attractive pot plant for the living room or sun parlor. Makes a charming and lasting cut flower.

OTHER AMARYLLIS

Belladonna

One of the best of "cool house" flowering bulbs. Large trumpet-shaped flowers of a pale china pink. We can make immediate delivery of these bulbs, as they require to be potted early for best results.

Doz., \$2.50; 100, \$17.50; 1,000, \$150.00.

Equestre

A free flowering flame red variety that is much admired by all. Makes a fine pot plant and is very valuable for outside planting in the South, where it propagates freely.

Doz., \$1.50; 100, \$10.00; 1,000, \$85.00.

Formosissima

(Sprekelia-Jacobeana Lily)

Brilliant crimson flowers, closely allied to the true Amaryllis; remarkable for its brilliancy and peculiar form, the upper petals ascending, while the lower ones enclose the stamens.

Doz., \$3.00; 100, \$20.00.

Johnsoni

The old favorite free flowering variety. Crimson with white stripe. Naturalizes readily in the South.

Doz., \$3.00; 100, \$20.00; 1,000, \$175.00.

Crinum

These large decorative bulbous plants are very popular in several southern states. In the north, they will need considerable winter protection.

FIMBRIATUM

One of the most popular of the Crinums. Pure white with lavender-pink stripes through centers of petals. Large flowering bulbs.

Per doz., \$1.50; per 100, \$10.00; per 1,000, \$85.00.

AMERICANA

Commonly known as the spider lily. Flowers profusely all summer. Umbels of pure white, drooping flowers. Large bulbs.

Per doz., \$1.50; per 100, \$10.00; per 1,000, \$85.00.

Miscellaneous Bulbs and Roots for Spring Planting

ANEMONE ST. BRIGID

Achimenes

We are producing this beautiful subject at our Florida farms. There are few items as showy as Achimenes for summer window box use or pots. They maintain a profusion of blooms throughout the whole season.

MAGNIFICA. Very fine violet blue	Doz.	100	1,000
	\$.90	\$6.00	\$50.00
AMBROISE VERSCHAFFELT. Blush white with markings of pale lavender	1.30	9.00	75.00

African Lily (Amorphophallus Rivieri)

This bulb likewise blooms without planting. It produces a Calla like shaped flower with a combination of red colors on a stem of mottled green with white spots. It attains a height of over six feet and the flower itself is nearly three feet high. It has no foliage in this stage; but after dying down it can be transferred to the garden where it produces an attractive palm-like appearing plant. Bulbs less than four years old will not produce the effect in the dry stage.

Prices: 4 year old bulbs, each \$4.50
3 year old bulbs, each 1.50
2 year old bulbs, each 1.00

Anemones—St. Brigid and De Caen

Anemones are among our prize bulbous flowers and those who have been successful in forcing them have been amply repaid. The flowers are invariably sold quickly at good prices. They provide color effects that are unsurpassable with other subjects. The bulbs bloom over a long period and with successive plantings a good cut can be maintained over the whole season. .

Our Anemones have been giving splendid results for many years and we have an extra fine lot to offer for this year.

ARUM CORNUTUM

Arum Cornutum

"MONARCH OF THE EAST"

This unique bulb was becoming very popular when the embargo went into effect and it has taken us several years to develop a sufficient stock in this country to justify a general offer at a reasonable price.

In a dry state it will, in any ordinary living room temperature (see illustration at left), throw up an odd growth of mottled gray foliage and stalk with a semblance of flower. This is accomplished without planting. The same bulb can then be put outdoors when the weather warms up and will produce a beautiful green foliage plant (see illustration at right).

When displayed for sale in the spring months, the bulbs start at once their usual growth right on the counters and such an oddity proves quite an attraction and makes them ready sellers.

Mammoth bulbs—per dozen, \$2.25; per 100, \$15.00; per 1,000, \$140.00.

Miscellaneous Bulbs and Roots for Spring Planting

SINGLE BEGONIA

Tuberous Rooted Begonias

With a dependable supply of satisfactory stock now being produced in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded locations. For an early showing it is desirable to start the bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state. We offer large first-size bulbs as follows:

DOUBLE BEGONIA

CALADIUM ESCULENTUM

Caladium Esculentum

"Elephant's Ear"

There is always a popular demand for these highly decorative tropical plants, and florists should arrange to have a good supply already started in pots for summer bedding. These bulbs also are quick sellers for store trade. Our stock is clean, healthy and carefully graded.

Chlidanthus Fragrans

A delightful summer-blooming plant, resembling the Zephyranthes; can be grown indoors or planted outside in early summer. Flowers are yellow, borne in umbels of from 4 to 6 flowers.

Per doz., \$1.00; per 100, \$7.50

Cinnamon Vines

Hardy climbing vine, makes dense foliage with small cinnamon scented flowers.

Per doz., 50c; per 100, \$3.50; per 1,000, \$30.00

Colored Calla Lilies

ALBA MACULATA

This Calla is prized for its beautiful spotted foliage which makes it a desirable pot or bedding plant. The flowers are white with green markings.

Doz., \$1.70; 100, \$12.00

PINK CALLA

This pretty little Calla is again available in limited quantity. It may be planted outside when frost is over or in the greenhouse at any time.

Each, 60c; doz., \$6.00

ELLIOTTIANA

The supply of these Callas was unusually short this past fall; but we have reserved a supply for our Spring trade. In addition to being very popular for cutflowers and pot plants, it is also being rather extensively used as a bedding plant.

1½ to 2 in.: Doz., \$2.00; 100, \$15.00; 1,000, \$125.00

BLACK CALLA

This unique plant has a value as a novelty and is always interesting.

"World's Foremost Bulb Growers"

Miscellaneous Bulbs and Roots for Spring Planting

EUCCHARIS AMAZONICA

Eucharis Amazonica

The well known Eucharis Lily recommended exclusively for indoors except in extreme southern states. Requires to be well established in pans or pots for free production of flowers. In Europe many growers devote whole houses to this subject and the flowers are classed with orchids and command corresponding prices. Bears from two to three white Narcissus flowers on a stem.

Each 60c; per doz., \$5.80; per 100, \$40.00

Gloriosa

This is undoubtedly the most beautiful of all climbing bulbous subjects. The leaves, which are like those of the Speciosum Lilies, have tendrils which support the plant. The flowers resemble the Speciosum Lily except that they are reflexed the same as Cyclamen. They are rare and beautiful subjects.

SUPERBA—This variety opens yellow but changes to a yellowish red and deep scarlet. Each tuber, 35c; per doz., \$3.60

ROTHSCHILDIANA—This is probably the strongest grower and most showy variety. The flowers are yellow at the base with the recurved petals a brilliant scarlet. Each tuber, 50c; per doz., \$5.00

Gloxinias

We have secured a nice lot of Gloxinias in sound, well graded bulbs and offer them in separate colors.

Per doz., \$3.60; per 100, \$25.00; per 1,000, \$225.00

Gypsophila Paniculata Flore Plena

Every florist can find a use for this fine double flowering form of "Baby Breath." We offer strong field grown roots, per doz., \$2.20; per 100, \$15.00

Hemerocallis New Hybrids

Hybridizers are giving attention to this fine native subject and some very fine hybrids are being developed, which range in color from almost pure white through the various shades of yellow to brown. With their long flowering season and fine foliage these plants are very decorative.

Strong field grown roots, per doz., \$1.80; per 100, \$12.50

Hyacinthus Candicans

Commonly known as Summer Hyacinths. Grows to a height of about 3 feet. They are very ornamental for borders. Large Bulbs.

1½"-2" in diameter, per doz., 70c; per 100, \$4.80; per 1,000, \$40.00

2⅓" in diameter, per doz., \$1.00; per 100, \$7.15; per 1,000, \$60.00

Ismene (Pancratium, Hymenocallis)

Very handsome greenhouse or conservatory bulb, that makes an uncommon and quick selling pot plant for the florist.

CALATHINA, the variety we offer, is known as the fragrant "Peruvian Sea Daffodil"; grows about 18" high with large white, frilled, trumpet shaped flowers.

Per doz., \$1.75; per 100, \$12.00

HYACINTHUS CANDICANS

Siberian Iris

With its graceful foliage and slender blue flowers this item is being used extensively in rock gardens.

Per doz., \$1.25; per 100, \$8.00; per 1,000, \$70.00

Japanese Iris

Japanese Iris are very easily grown and adapt themselves to almost any soil condition. They bloom in June and closely follow the German Iris. Their graceful, giant blooms on long stiff stems make them ideal decorative flowers. The colors range from vivid blues, purples and crimsons to delicate lavender and white. Our stock is produced from seed and contains many striking and novel color combinations.

Fine Assortment of Mixed Varieties in a wide range of colors.

Per doz., \$1.25; per 100, \$8.50; per 1,000, \$75.00

(Blazing Star or Kansas Gay Feather)

This fine perennial is coming into greater use all the time. It seems to adapt itself in practically all conditions. Tall graceful spikes of bright blue. Strong 2 year old roots, per doz., \$1.50; per 100, \$10.00; per 1,000, \$90.00

Lily of the Valley

FORCING STOCK

Experienced "Lily of the Valley" forcers are far more interested in the quality of the stock they purchase than in the prices they pay. They have established to their satisfaction that a few dollars more in the purchase price comes back to them several times in their sales return when they get proper quality.

To retain and yearly add to our large Valley importations is conclusive evidence that we are supplying the kind of stock that makes money for our customers.

Our Valley is inspected during the growing season and packed under the supervision of our own men. The increased price this season is due to the higher tariff which has been raised from \$2.00 to \$6.00 per 1,000.

LUBECK PIPS (Extra Quality)

This type contains more bells and makes a stronger plant than any other.

NEWPORT BRAND (Finest Quality)

With the exception of the Lubeck pips these are the finest pips grown in Germany. They represent the pick of the crop from the Wittenberg section as well as those grown on sandy soil in the vicinity of Hamburg.

Case of 250	\$11.00	(Cases of 1,000 are the maximum size in this grade also.)
Case of 500	20.00	
Case of 1,000	38.00

Makes a quick, dense growth of ivy-like foliage which is covered in late summer with small spiral trusses of white, sweet scented flowers.

Per doz., 50c; per 100, \$3.00; per 1,000, \$25.00

LILY OF THE VALLEY—"NEWPORT" BRAND

'Valley' for Out-doors

This is a special grade that we import especially for the purpose—not seconds, culls or carried over stock—but full size pips of the new crop each of which will throw a large spike. We have developed a nice business in this item and every florist will find that a planting will bring a good early return. It is a splendid item for counter trade.

Glorious Montbretias

We have been paying special attention to these beautiful bulbous plants and have now developed nice stocks in several fine varieties covering the usual range of colors. The flowers attracted much favorable comment wherever shown by us last summer and we are sure that florists will not go wrong in making a planting, for their gracefulness permits of lighter decorations than possible with Gladiolus. Many of the varieties produce three and four flowers to each bulb, thus reducing the cost per flower to a nominal sum. We are considered as American headquarters for Montbretias.

Miscellaneous Bulbs and Roots for Spring Planting

TIGRIDIA (SHELL FLOWER)

TRITOMA PFITZERI

Tuberoses (Double and Single)

The supply of Tuberoses is more plentiful and florists are again taking hold of them in considerable quantity for cut flower purposes. We handle the bulk of the Tuberose crop and we are able to make a selection of well cured stock particularly adaptable to this trade.

ZEPHYRANTHES

Zephyranthes

We are paying a lot of attention to the development of stocks of the many beautiful varieties of Zephyranthes as we are sure that this is an item that can find a place in every garden and prove extremely useful as a pot plant. The flowers develop very rapidly with practically no care.

CARINATA (Rosea). Soft rose pink with white center—very beautiful. Height 8". Per 100, \$5.00; 1,000 \$40.00.

ATAMASCO. The true "Zephyr Lily." Very pretty pure white flowers. Per 100, \$3.00; 1,000, \$25.00.

Oxalis

Now that rock gardening is so popular, our customers will find an additional use for this summer flowering Oxalis. Even after the flowering period is finished the graceful foliage is attractive throughout the whole season.

DIEPPI. Pure white, very fine.	Per doz.	\$0.25
LASANDRIA. Rosy pink, beautiful cut foliage.	Per 100	\$1.25
SHAMROCK. Clover-like foliage, pink blossoms.	Per 1,000	\$10.00

Ranunculus

We have started many greenhouse men in the growing of Ranunculus and they are making money on them. The Domestic bulbs are larger than those formerly imported and seem to force better. If your trade can use "something different" we suggest that you try them.

The giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

GIANT FRENCH MIXED. The Californian grown bulbs are giving splendid results, and we have several letters from customers telling us of the fine flowers produced. Beautiful rosette flowers in a wide range of colors. Force well. The bulbs are cheaper this year.

Regular First Size	100	1,000
Mammoth Bulbs	\$2.50	\$20.00

Tritoma

"Red Hot Poker" or "Flame Flower"

These are very showy decorative plants and are being profitably grown for cut flowers. They seem to do particularly well at our Long Island farm. We offer strong divisions as under

PFITZERI. This is the leading variety. It is a prolific bloomer and the flowers are a beautiful flame red color.

Per doz., \$2.00; per 100, \$15.00

RUFA. This is a dainty variety that is becoming very popular. Tall slender flowers and foliage. Orange yellow. Good for forcing.

Per doz., \$1.75; per 100, \$12.00

HYBRIDS. We have made a selection of the most conspicuous and useful varieties from a large planting of seedlings obtained from one of the noted European specialists. These range in color from almost pure white through the various shades of yellow and touch upon the coral pinks. Their early and constant flowering habit make them a most useful addition to our summer flowers.

TUBEROSE, DWARF PEARL

F. Rynveld and Sons, 350 Greenwich Street, New York

Dielytra Spectabilis

(Bleeding Heart)

We have been advocating the more extensive use of this beautiful decorative plant for several years and those of our customers who have availed themselves of our suggestion have profited. It is used extensively as an early spring pot plant and is a fine specialty for St. Valentine's day. The cut sprays are also useful. It is perfectly hardy and makes a splendid showing in the perennial border or when planted with early bulb stocks.

We are the largest growers of this very useful plant and offer large clumps suitable for forcing or outside planting.

Our clumps, all produced from cuttings, are far more productive than from divided stock.

Doz., \$5.00; 100, \$35.00; 1,000, \$325.00

Sansevieria, The Modernistic House Plant

While we have a limited quantity of Laurenti and a much bigger supply of Zeylanica to offer through the winter months, the larger deliveries on the former will have to wait for the first of the spring crop, which will not be ready until April or May and we are booking for delivery at that time. Our stock of Laurenti is guaranteed to be 100% Florida grown and is the true broad leaf type.

Sansevierias continue to gain in popularity and now that they are becoming more reasonable in price and are available in greater quantities, they will undoubtedly prove to be the best selling of all decorative pot plants.

Special rosette type for dish gardens—dwarf plants with 3 or 4 leaves, per 100 \$10.00.

VARIEGATED OPHIOPOGON

This is a graceful subject with striped leaves like Pandanus. Holds up very well. Nice rooted divisions. About 8" tall with 12 to 15 leaves, per 100, \$17.50.

FICUS ELASTICA (Rubber Plants)

We will have a supply of these available through the Fall and early Winter. Well rooted top cuttings with 5 to 8 leaves and about 14" high, per 100, \$17.50.

POTHOS VINE

This tropical climber is also a useful subject for dish gardens. The leaves are green with stripes and mottlings of yellow. Holds up well and is very decorative.

Plants average 5" high with four leaves, per 100, \$20.00.

Rynveld's Florida-grown Wrapped Ferns

WRAPPED BOSTON FERN

While not particularly adapted for reestablishing by florists, these wrapped ferns are a great counter attraction and sell quickly at their market prices. We are the largest individual producers and shippers, and annually distribute several millions over a widely scattered area, including the Pacific North-west.

Every fern that we offer has been transplanted at least once and this means a more compact set of fibrous roots, which in turn enables the ultimate buyer to readily establish it when potted up and placed in the home.

The roots of each fern are covered with damp Sphagnum moss and wrapped with heavy wax paper which retains the moisture and assures arrival in good condition, and further maintains the fresh appearance when displayed on the counters.

We ship in light, solid, corrugated paper-box containers, which considerably lessens the weight and reduces the transportation costs.

Approximate packed weights per 100 ferns: Bostons—28 lbs. Plumosus—22 lbs. Sprengeri—35 lbs.

Boston

This is the most popular variety. It establishes itself quickly and makes a fine house plant. We have a large stock of compact, well-grown plants.

Per 100, \$5.50

Asparagus Plumosus

This ranks as the second best seller. In the early stage of growth it makes a compact plant and later the fronds lengthen and trail.

Asparagus Sprengeri

This is a sturdy variety that is largely used in late spring for hanging baskets. Its trailing nature makes it especially useful for this purpose.

These two varieties offered at the same price, per 100, \$5.50 (no smaller quantity sold)

Whitmani (Lace Fern)

The beautiful and graceful lace fern.

Compacta (Sword Fern)

Straight, sword-like fronds. This variety is tough and will stand lots of abuse.

These two varieties per 100, \$7.50 (no smaller quantity sold)

English Ivy (Wrapped Plants)

Long, well rooted strands. English Ivy is very popular these days as a house plant.

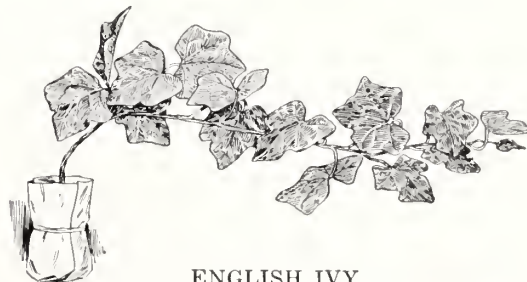

Price, \$6.00 per 100. (No smaller quantity sold)

"World's Foremost Bulb Growers"

Hardy Garden Lilies

In possibly no class of bulbs is as much interest being shown as in the beautiful hardy lilies, and real efforts are being made in the various producing centers to develop stocks that have been available heretofore only in limited quantities. We are offering some of the most popular kinds and our large volume of trade enables us to make very reasonable prices.

LILIUM REGALE

Lilium Tenuifolium

A very graceful lily of low stature with handsome grass-like foliage. Flowers are deep glistening scarlet, from 12 to 20 of them hanging from a single spike. A fine lily among dwarf perennials or in the Rock Garden.

Per doz., \$2.15; per 100, \$15.00

Lilium Tigrinum

(Tiger Lily)

Tiger Lilies are splendid for Hardy borders and naturalizing. They make excellent cut flowers and thrive where many other varieties will not do well. Deep orange with black dots.

	Doz.	100	1,000
Single	\$1.00	\$6.50	\$60.00
Double	1.00	7.00	65.00

Japanese Hardy Lilies

Lilium Rubrum

Pink Spotted, with white margin. This variety is reported much shorter in crop than last season and as a result the prices are somewhat higher.

11/13 in.	2.65	18.00	Per case of 100	18.00

Lilium Regale (Myriophyllum)

The beauty of this fine Lily is well known and it stands unequalled among those which will thrive in this country. The trade has long awaited a supply of these bulbs at reasonable prices, and we are now glad to have a stock sufficiently large to enable us to make a general offer.

In this latitude the **Regale Lilies** bloom in early June and about the same time as **Lilium Candidum**. They have white trumpet flowers with slight pink and other colored stripes on the lower petals and are very fragrant. The bulbs we offer are good flowering size and we suggest that they be left undisturbed for several years as they will then enlarge annually and throw more and larger flower spikes.

	Doz.	100	1,000
3/4"	\$1.25	\$ 8.50	\$ 75.00
4/5"	1.75	12.00	100.00

Florists' Forcing Lilies

There is a vast difference between Giganteum bulbs as produced in the various sections of Japan and we have for years been making a careful observation of the different stocks. For the past few years the bulbs we have delivered have produced far better than any other stocks that we have seen or that have been reported to us. This year we have our supply from the same dependable producer.

From Cold Storage

LILIUM GIGANTEUM

This variety is used most extensively by specialists. Demands an even temperature of 50 degrees at start and then 60 degrees after well rooted.
